## CHI SIAMO

Il **GRUPPO RAINA** è il brand che raggruppa sotto lo stesso nome i marchi:

**IDEALLUX** produzione storica specializzata nella realizzazione e vendita di apparecchi destinati ai settori dell'industria e del terziario.

**COLOMBO** marchio specifico per gli apparecchi stradali, arredo urbano e da esterno.

**LOOKUP** con la sua nuova e ampia gamma di apparecchi decorativi e architettonici.

**IDEALLUX®** **COLOMBO** *Lookup*

## MISSION

Il gruppo ha come mission la progettazione e la produzione di sistemi di illuminazione, caratterizzati da un'elevata tecnologia e da un ottimo rendimento, totalmente realizzati nello stabilimento di Cilavegna, in Provincia di Pavia e certificati 100% Made in Italy. Gruppo Raina vanta tra le certificazioni ottenute la certificazione ISO 9001:2008 e la certificazione 100% Made in Italy rilasciata dall'Istituto Per la Tutela dei Produttori Italiani. I numeri del gruppo riassumono le capacità dello stesso, con i suoi 12.000 mq di stabilimento produttivo, 7.000 mq di magazzino, 100 risorse impiegate e oltre 3.800 clienti attivi.

## QUALITÀ

Nell'ottica della soddisfazione del cliente e dell'ottimizzazione del servizio, Ideallux ha messo in atto processi di controllo qualità con l'obiettivo di limitare la difettosità, che si è attestata ad una percentuale inferiore all'1% (dato statistico ISO degli ultimi tre anni).

## LA STORIA

1987

**Ideallux viene fondata nel 1987 per volontà di Claudio Raina.**

Nasce come azienda artigiana di produzione di apparecchi di illuminazione, per divenire in pochi anni un'importante realtà industriale del settore di illuminazione.

2011

**Nel 2011 avviene il passaggio dalle fonti tradizionali alle nuove tecnologie LED.**

Ideallux lancia un catalogo dedicato esclusivamente ad apparecchi di illuminazione LED, affiancandolo all'ormai consolidato catalogo di prodotti fluorescenza.

2017

**Il 2017 ha segnato il traguardo dei 30 ANNI di attività.**

Il Fuorisalone 2017 – Via Tortona – Milano è stata la location perfetta per festeggiare questa importantissima tappa, presentando i prodotti Ideallux con una nuova veste.

2018

**Nel 2018, in occasione di Light+Building, la più prestigiosa fiera dell'illuminazione nel panorama internazionale, Ideallux presenta al mondo del lighting il nuovo Gruppo Raina.**

Gruppo Raina è il brand che raggruppa sotto lo stesso nome i marchi Ideallux, Lookup e Colombo

2018

**Il 01.10 segna un'altra nuova importante tappa della storia del gruppo.**

Viene presentata e lanciata sul mercato l'ampia gamma del brand Look up, caratterizzata da apparecchi decorativi dal design moderno alcuni dei quali dotati della nuova tecnologia dei marchi depositati.

Vario Lumen e Vario Kelvin.

## VARIO LUMEN E VARIO KELVIN

Vario Lumen™ e Vario Kelvin™, due sistemi di controllo che rendono l'illuminazione facile, confortevole e conveniente.

Facile perché con i sistemi **Vario Lumen™** e **Vario Kelvin™** è possibile regolare l'intensità luminosa ed il colore della luce emessa, semplicemente agendo sul corpo illuminante senza interfacce software, app e/o altri dispositivi. Confortevole perché sarà il cliente a decidere la quantità di luce e la temperatura di colore adattandola all'ambiente da illuminare o al proprio gusto personale.

**CONVENIENTE PERCHÉ UN SOLO APPARECCHIO PERMETTE DI SODDISFARE DIFFERENTI ESIGENZE ILLUMINOTECNICHE.**

L'innovativo sistema **Vario Kelvin™** del **Gruppo Raina** permette di variare la temperatura di colore degli apparecchi di illuminazione, mediante un selettore opportunamente integrato nel prodotto. La semplicità della tecnologia **Vario Kelvin™** rende la soluzione accessibile in modo economico a tutta la filiera, contrariamente ad altre tecnologie più costose e complesse. **Vario Kelvin™** del **Gruppo Raina** permette con un unico codice prodotto la scelta tra tre diverse temperature di colore: per le applicazioni tecniche residenziali o del retail 2700K, 3350K, 4000K; per gli impianti industriali 3000K, 4000K, 6000K.

4000 K

3350 K

2700 K

Il sistema **Vario Lumen™** adotta una tecnologia che permette di variare la potenza e quindi la quantità di lumen emessi dagli apparecchi di illuminazione del **Gruppo Raina**. Questo innovativo sistema, permette di ottimizzare i magazzini dei distributori di materiale elettrico e risolvere problematiche di impianto durante la fase di installazione ai clienti impiantisti. Con un unico codice prodotto, si possono raggiungere fino ad un massimo di cinque livelli di regolazione di flusso luminoso.

Con la tecnologia **Vario Lumen™**, scegliere la luce che occorre è economico e facile.
